Product Specification

Sequoia Blend Mulch

Mulch Ground Cover - Erosion Control

Screened at 3 inch

- **Product derived from grinding select green trimmings (arbor wood) and ground pine or fir wood. Approximate ratio is 50/50.**
- **Product makes an excellent ground cover providing a woody texture.**
- **Product is brown to light golden brown with a consistent texture.**
- **Aids in preventing erosion, conserving moisture and reducing weed growth.**
- **Particle size: screened at 3-inch minus with majority of ½ inch minus fines removed.**
- **Excellent ground cover mulch ---use where you need a mulch that is better than simple ground green waste.**
- **Simple, clean, cost effective.**
- **Suggested application use rate: 3 to 6 vertical inches or 9 to 18 cubic-yards Per 1,000 square feet.**
